1. SAFETY AND SECURITY

Safety of girls is a top priority at every college campus. Nowadays, safe and supportive campus community is both an obligation and a challenge for college administrators and students. Institute should provide a comprehensive range of security amenities especially for girls within the premises, through a dedicated team of security personnel. It is a common phenomenon that most of the outstation students enrolling for different courses come out of their homes and cities for the first time in their life. It is therefore of utmost importance for institutions to provide them a comfortable and safe ambience of 'feel at home' within the campus.

Women safety at any college campus is a serious concern now. According to a poll, 86% of parents believe that the safety of the campus is one of the most important factors in choosing one institution over the other. This problem can only be solved through awareness and prevention programs, dialogue and action. Students should be given regular lessons about sexual assault and its prevention from the school level itself so that they become more aware and alert and do not hesitate in taking preventive and safety actions in case such disdainful circumstances are encountered in future. So, following actions have been taken to ensure safety of the girl students.

1.1 CCTV CAMERA

24 hour CCTV surveillance is maintained in the college. It helps to keep a check on antisocial activities. Students and other employees in the college too remain cautious about the surveillance. Discipline is also maintained and it also provides a sense of security to the students and even their guardians. Students wear identity cards at all times to ensure their identity. The institution takes good care of the students in every aspect.
