| <b>PREVALENCE OF ORAL DISEASES</b> | <b>Dental Caries</b>   | <b>Gingivitis/Periodontitis</b> | <b>Wasting diseases</b> | <b>Fluorosis</b> | <b>Malocclusion</b> | <b>Others</b> |
|                                    | 31.5%  | 70%                             | 24.2%                   | 3.4%             | 17.5%               | 12%           |
| <b>SUMMARY</b>                     | In the present population, Periodontitis, Dental caries and wasting diseases were more prevalent. As the oral health awareness was low and unmet needs were high. In this outreach activity participants were made aware of the importance of oral health and necessary basic treatment was provided in the mobile dental unit and patients were referred to SB Patil Institute for Dental science and Research for further treatment. |                                 |                         |                  |                     |               |
